ClassIn

ClassIn Hybrid Learning Space

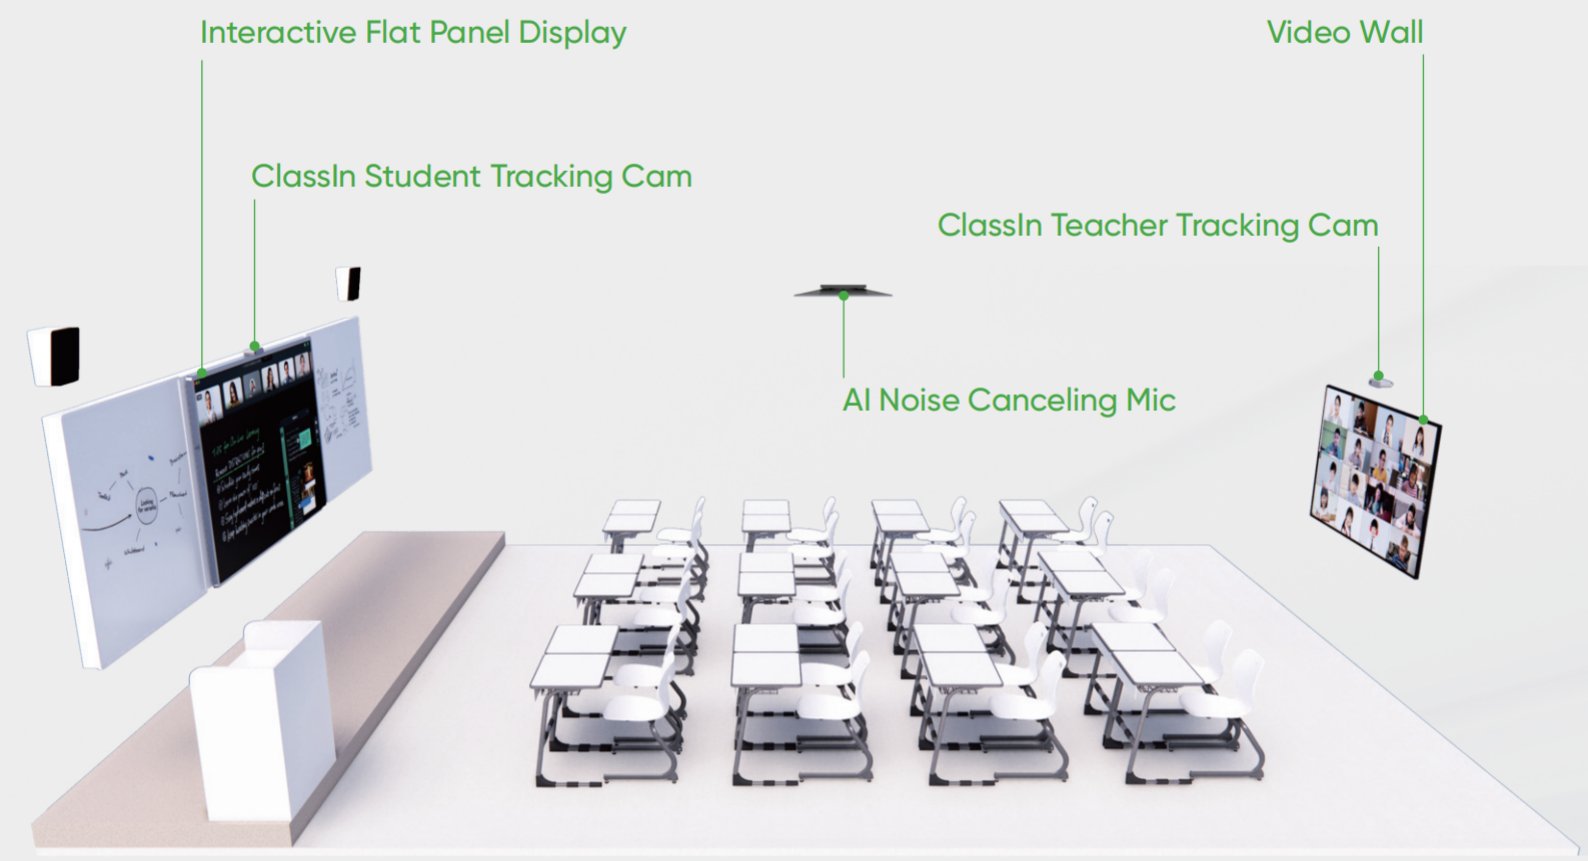
More than a Classroom:
Technology-Enhanced Interactive Learning Environment

Next-Generation Classroom Environment

Harnessing the power of technology,

ClassIn is building the global infrastructure for hybrid learning

Request a Demo



01

Redefine the class-room blackboard

Intuitive gesture designs and freeform handwriting

02

Activity-based teaching tools

Deliver superior learning outcomes with powerful, subject-specific tools

03

High compatibility with existing hardware

ClassIn runs smoothly on smart screens, PC, iPad, as well as Android and iOS systems

ClassIn

Highly Engaged Classrooms

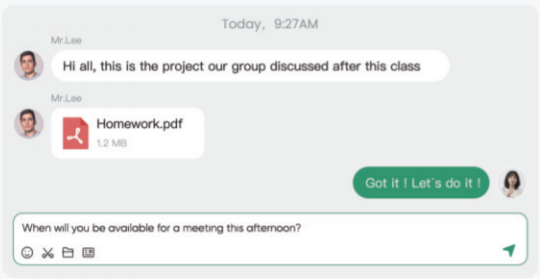
We've got you covered every step of the learning process

Request a Demo

30+ specialized education tools

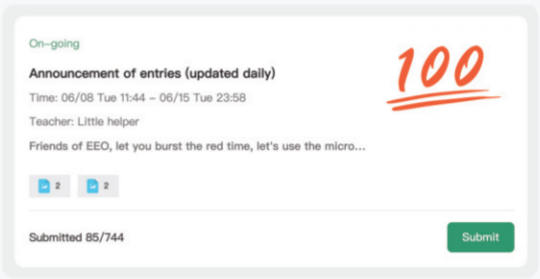
Class capacity up to 2000 students

Cloud drive starting from 500 GB



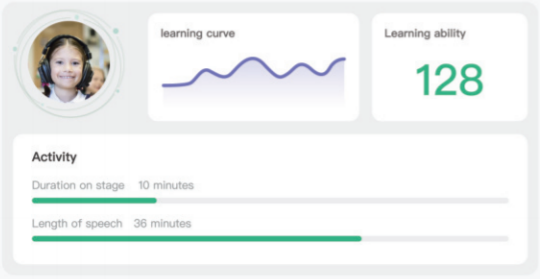
IM System

Smooth communication between teachers and students



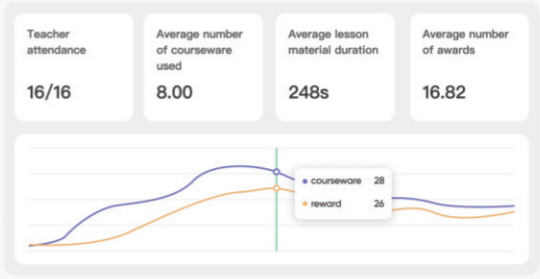
Assignments & Grading

Easy-to-manage homework and grading with high flexibility



Learning Reports

Insights into learning behaviors to keep track of long-term progress



Class Management

One intuitive backend system to manage all classes and personnel and view analytics

Dial up the fun with class activities

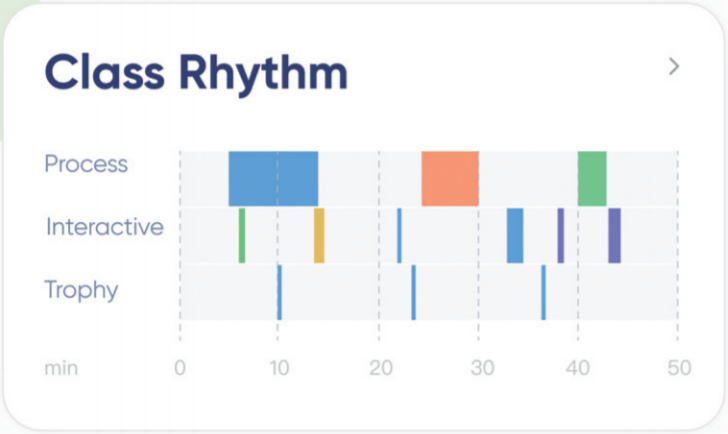
Take full advantage of ClassIn's virtual blackboard, responder, timer, and more teaching tools to boost interaction.

Make sure every student is heard

Assign the small blackboard in class to encourage student input without the pressure of raising their hands.

Create a distraction-free classroom

ClassIn's focus mode brings the classroom into full screen and pins the window to always be on top.



Stay on track with learning progress

Keep students on the edge of their seats with ClassIn's selector tool for a pop quiz of multiple choice questions.

Give positive feedback in time

Reward students with virtual trophies when they are paying close attention and actively participating.

Classin

Effortless School Management

We help schools make better-informed decisions using data-driven insights

Improve Attendance and Track Student Achievement

Distribute Learning Materials at Your Fingertips

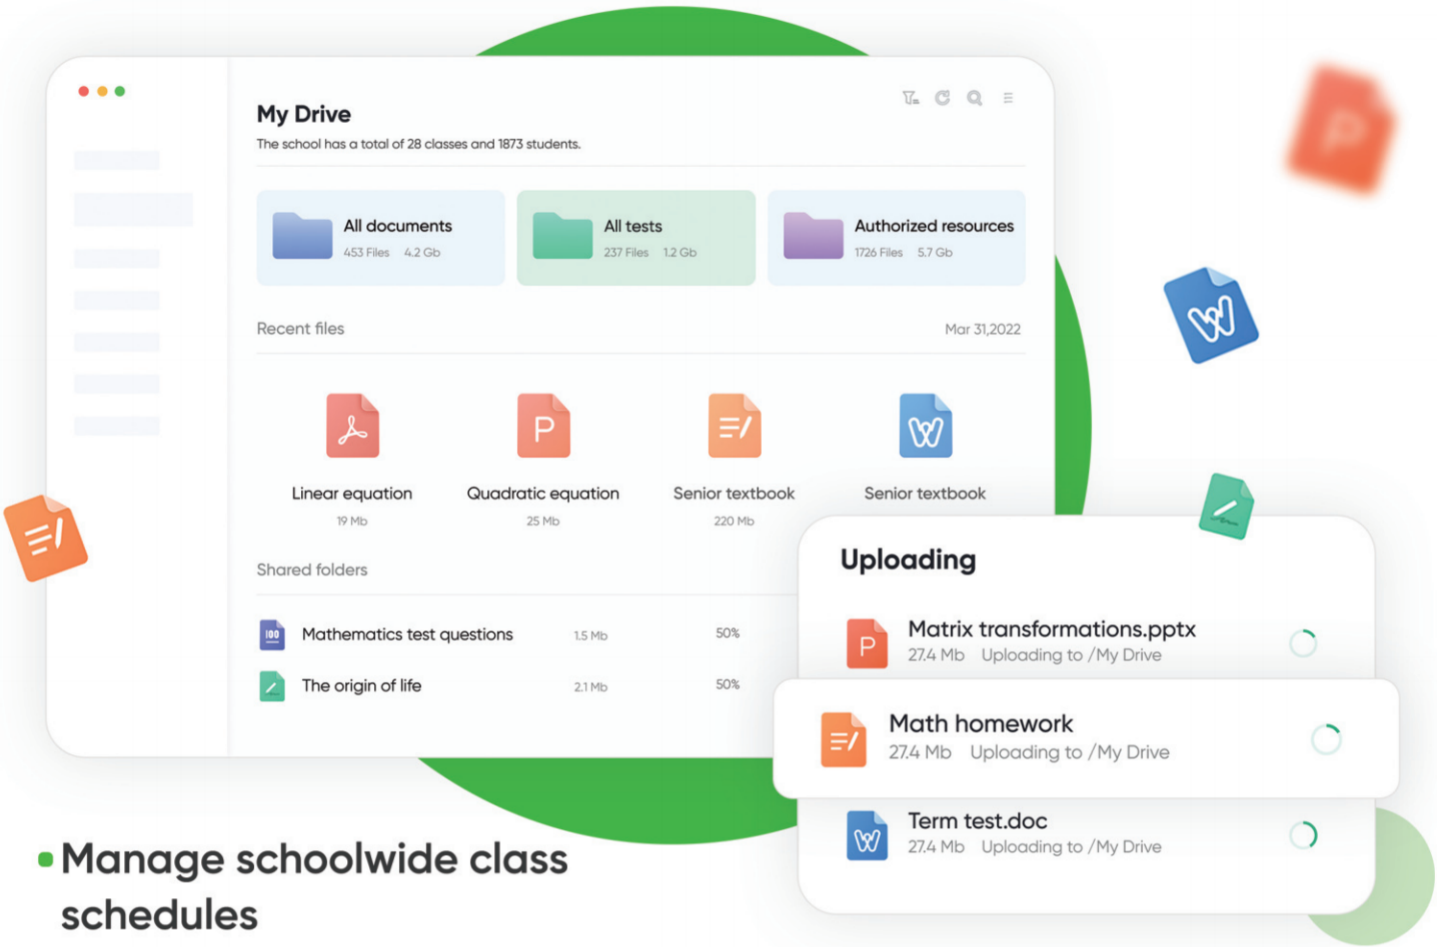
Digitize Assessment with Learning Report

Show off your school brand

Customize school logos, course thumbnails, and virtual classroom designs to meet your brand image.

Clarify roles and responsibilities

Batch import personnel information with specific tags according to the roles of student, teacher, and administrator.



Manage schoolwide class schedules

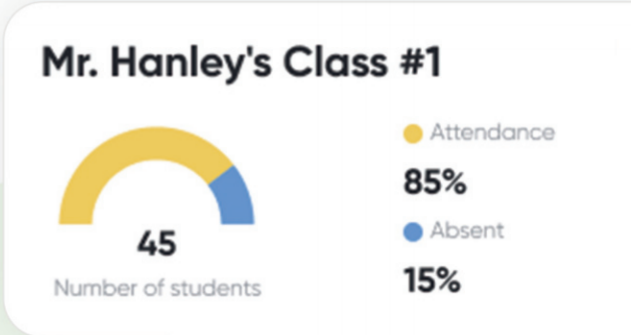
The dashboard's course tab organizes all classes into one database with options to filter and edit course details.

Enable flexible learning pathways

Access cloud-based course recordings and learning materials for students to learn at their own pace.

Get insights on learning behaviors

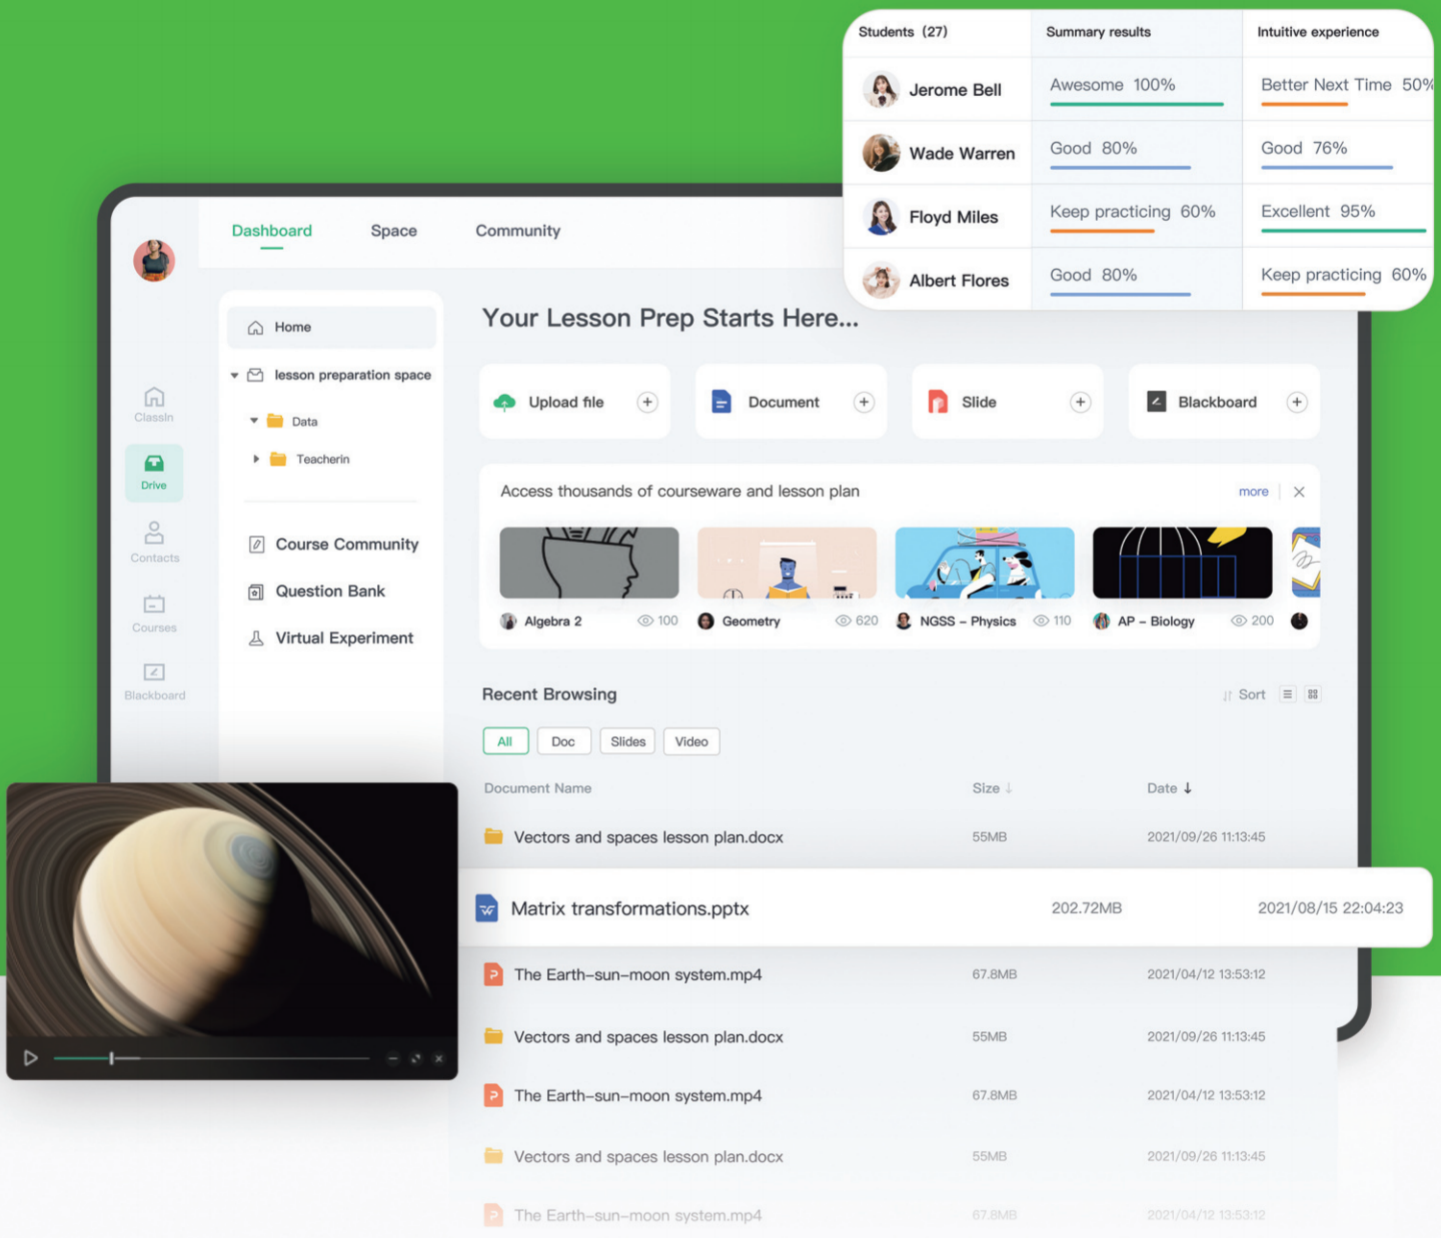
Choose and customize templates for autogenerated learning reports on attendance, participation, achievement, and more.



Classin

Intuitive Lesson Planning

We prepare students for the 21st Century



Student-Centered

Competency-Based

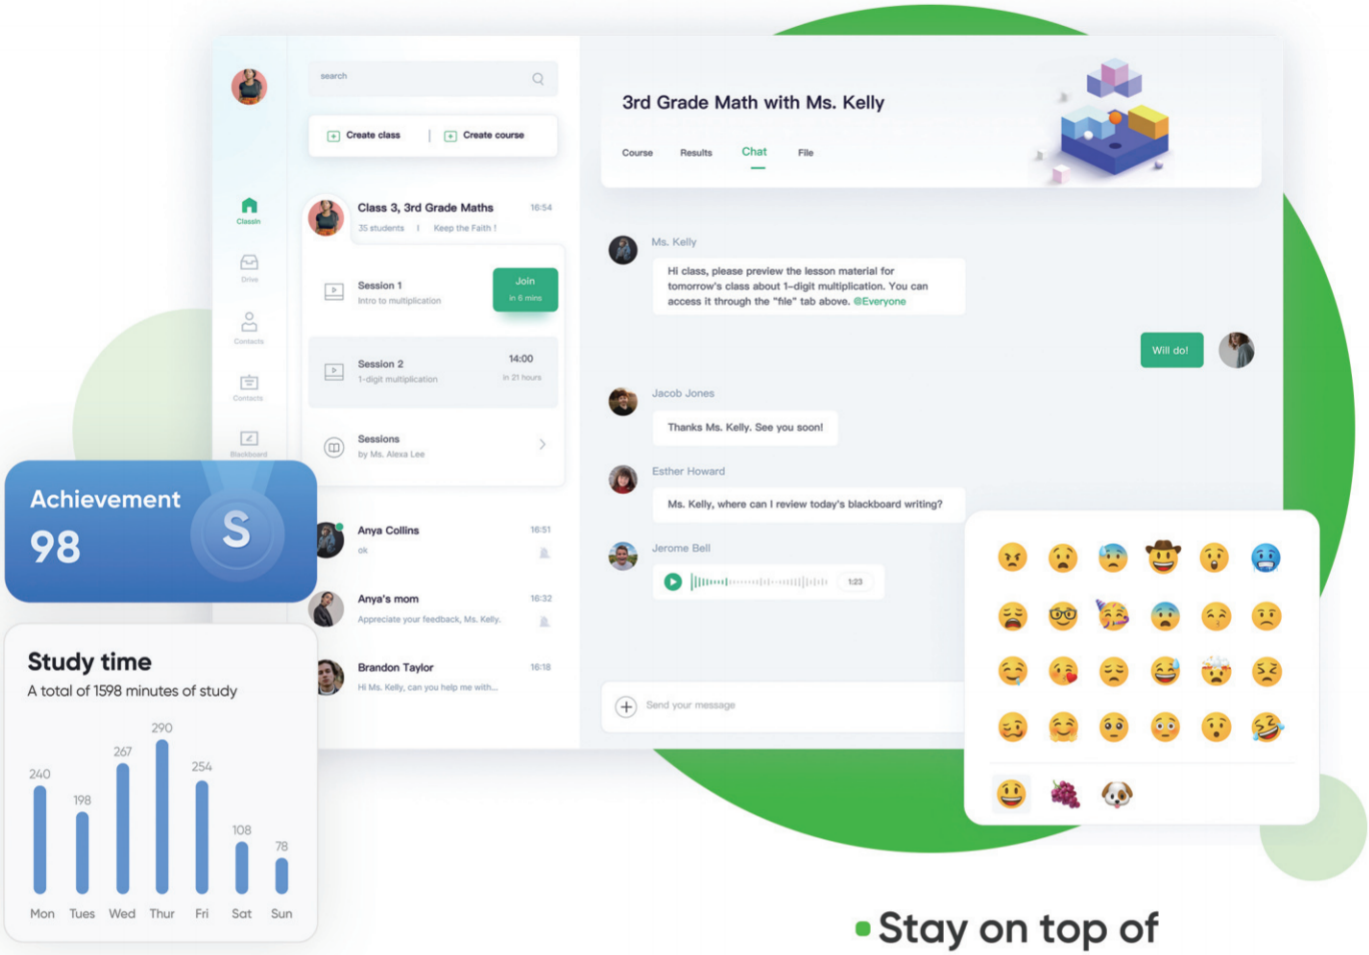
Process-Oriented

Break down long-term learning objectives

Organize your classes with units to turn larger goals into clear and manageable modules.

Shape 21st-century competencies

Create competency groups and add relevant metrics to keep track of learning goals for every class activity.



Foster a marketplace of ideas

Set up discussions in and outside the classroom to keep young minds active and encourage critical thinking.

Stay on top of learning outcomes

Conduct formative assessment with individual or group projects, research papers, and more under ClassIn's task.

Get inspired by educators worldwide

Join TeacherIn, a collaborative hub for educators, to work on course designs together with access to vast resources.

Unlock a World of Learning

Oxford University Press

Judges from the UK, US, and the Philippines gave evaluations on the teachers' performances using ClassIn.

Sony Global Education

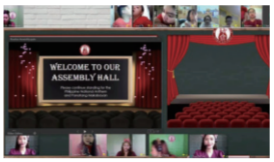
Sony Global Education and ClassIn signed a cooperation agreement to jointly develop an interactive online course platform.

THINK Engineering

An engineering company adopted ClassIn to enable interactive drilling training.

Our Lady of Africa Schools

A private school in Uganda achieved remarkable learning outcomes using ClassIn despite lockdowns.



St. Philomena School

A private school in the Philippines witnessed reconnection and growth after adopting ClassIn during the pandemic.

Peking University

Global Open Courses Program: Close to 200 students from five continents enrolled in a total of 287 classes.
