

# JOINT VALUE BROCHURE

CREATING COHESIVE COMMUNICATION  
SOLUTIONS TOGETHER

# About Yeastar

**Yeastar** IP PBX goes beyond being just another PBX. It provides SMEs with visualized call management, video communications, advanced call center features, unified communications applications, anywhere-anytime connectivity, and everything practical – yet outperforming across browsers, mobiles, and desktops. Balancing costs and future growth, Yeastar P-Series requires a lower total cost of ownership, less training, and less management effort, whether it's transitioning to a new phone system or building one from the ground up.

Third-party communication resources including IP Phones, CRM, and collaboration tools also integrate easily with P-Series components to form a cohesive communication and collaboration solution, breaking old boundaries for today's systems.

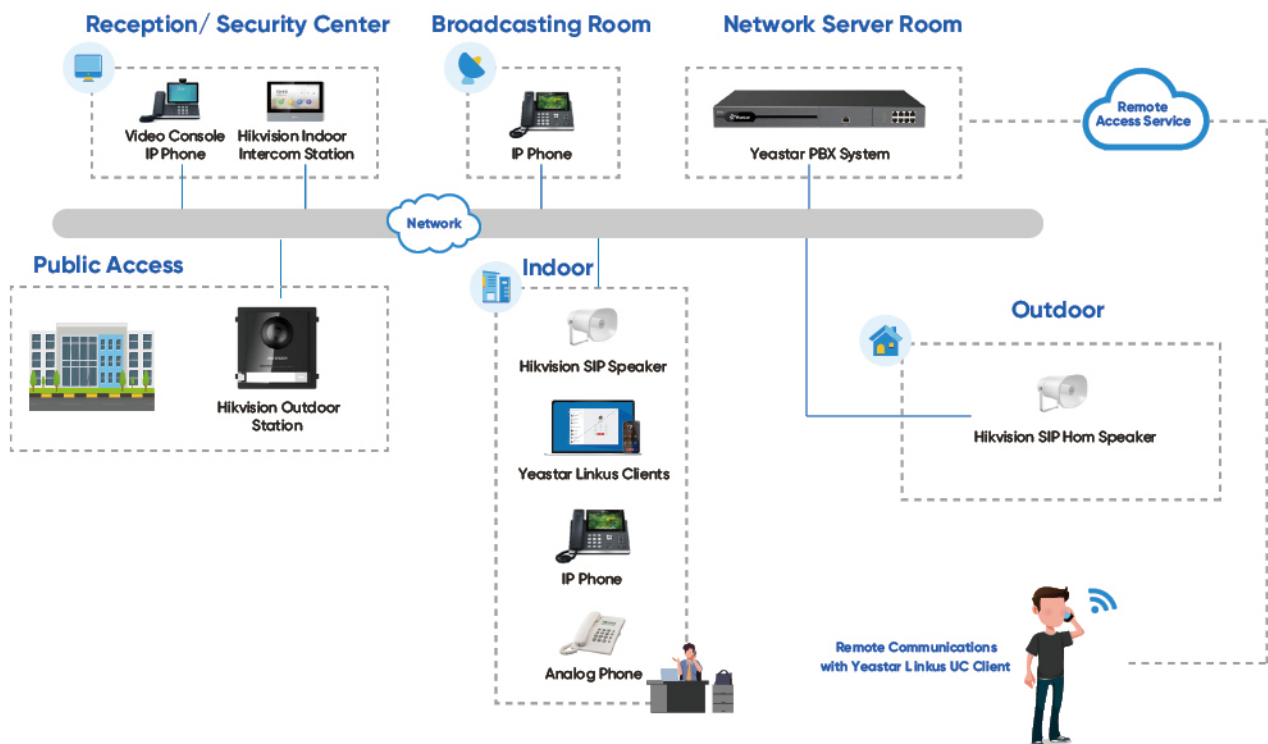

## Targeted Industries (Verticals)

- Healthcare
- Retail
- Logistics
- Banking/Finance
- Education
- Commercial
- Transport

## How it Works

SOLUTION ARCHITECTURE

# Key Benefits

## Seamless & Easy Integration

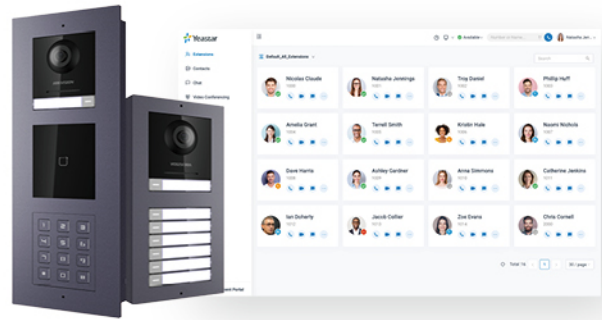

Thanks to the intuitive iVMS-4200 Clients Software and Yeastar PBX's Metro UI, Hikvision door stations can be registered as regular PBX extensions within a few simple steps. There is no complex API setting. And the embedded standard SIP function ensures every call and interaction between the two systems are seamless and under easy control.

## Advanced UC Experience with Yeastar

High-performing Yeastar Unified Communications for business efficiency and team collaborations:

- ✓ Linkus UC Clients for a consistent communication experience that across browsers, mobiles, and desktops.
- ✓ PBX-integrated video conferencing, in-meeting screen sharing and team chat.
- ✓ Hassle-free remote working contributed by Yeastar Remote Access Service.
- ✓ Robust Call Center console with Queue Panel, Wallboards, reports, etc.
- ✓ Rich easy integration with Microsoft Teams, Zoho CRM, and more.

## Flexible Public Access Control

Attend to your visitors from wherever you are. Visitors can simply press the "Call" button on the door station and you will receive an audio/video call via office IP phone or Yeastar Linkus UC Clients (Web, Mobile, Desktop), giving you instant access to who's at your doorstep even when you're not there. You can also set up call forwarding rules with multiple extensions to handle visitor calls, so no visitors will be left unattended.

## Integrated System with Cost-Savings

Yeastar PBX systems offer advanced intercom/paging features that allows users to quickly conduct intercoms with Hikvision endpoints, make ad-hoc zone paging, or schedule a broadcasting - from anywhere without requiring any separate intercom/paging server. Ideal for cutting business outlay while achieving the true efficiency with an integral system.

# Key Features

Answer and open a door from any Yeastar PBX extension, anywhere.

See who is at the front door and converse easily via IP video phone or via Yeastar Linkus Web Client.

Auto-forward doorphone calls to your mobile number or Linkus Mobile Client when not answered.

Easy integration with Hikvision Indoor/Outdoor Intercom and SIP devices

No more expensive, separate paging servers; the PBX built-in paging system enables easy broadcasting from the devices you like (IP phone or Mobile/PC with Linkus UC Clients)
