POS | EAS | SMART SHELF | ALARM | FIRE DOOR | ACCESS CONTROL

NEXT GENERATION LOSS PREVENTION

IoT Risk Management Solution

A 21st century approach to risk management through IoT (Internet of Things), innovation, technology and behaviours.

We provide software solutions that analyse device data, connecting with cctv, using a modern cloud platform allowing risks to be revealed anytime, anywhere.

Policy based exceptions reporting and real time alerting.

Intergration with existing CCTV systems for exception bases visual evidence.

Simple, powerful video / data analytics for dashboard drill downs & reporting.

Modern and secure cloud platform for low cost, simple deployment.
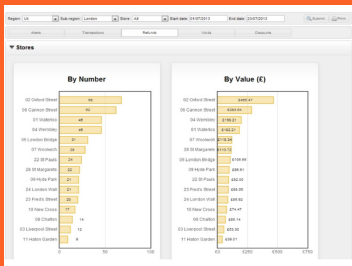

Transpeye Key Features

- Alarm Activation Views
- Remote CCTV Checks
- Transaction View
- Drill Down Analytics
- Quadrant Analytics
- Forensic Views
- PDF Reporting Templates
