

JOINT VALUE BROCHURE

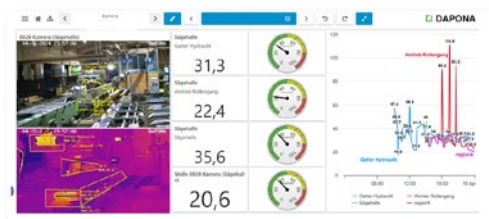

CREATING REMOTE CONDITION MONITORING
AND WARNING SOLUTIONS TOGETHER

Your first line of defense

About DAPONA condition monitoring

DAPONA centralizes real-time status of multiple types of sensors from different manufacturers in combination with thermal imaging, to provide a first line of warning for site management as well as in production lines.

Our technology is also useful for planning and risk assessment, which can then be part of risk mitigation, for example by paying particular attention to fire safety and evacuation plans.

Technical Details

Solution Type	Fire & Life Safety Systems, SCADA
Integration Protocol	ISAPI
Product Languages	English, French, Italian, German
Regions	Africa, Asia, Europe, Latin America, Middle East & North Africa, North America, Oceania

Integrated Hikvision Products

✓ Thermal

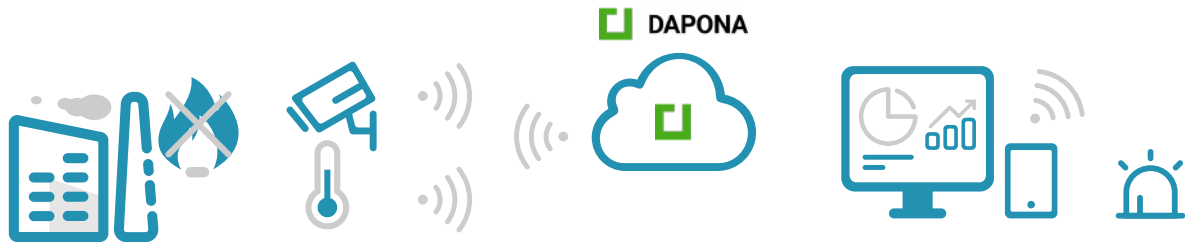

Supported Product Models and Versions

DS-2TD2628 HeatPro Series
DS-2TD2628T HeatPro Series
DS-2TD1228 HeatPro Series
DS-2TD1228T HeatPro Series

Solution **Architecture**

You can't always be in the factory, which is why our solution brings important alerts outside – using AWS to report safety warnings on mobile devices or PCs.

User **Benefits**

- 1** • Remote access via mobile or PC to real-time thermal and fire monitoring for industrial sites
- 2** • Monitor industrial applications for excessive heat – your production line is at risk!
- 3** • Unified remote management of combined sensors and thermal imaging
- 4** • Verification of multiple alarm types from the same cloud-based interface

Key Features

We integrate different brands of sensors into our interface

Easy-to-understand graphics and dynamic icons

Detect damage before it occurs

Targeted industries

-  Retail
-  Safe City
-  Commercial
-  Utilities
-  Energy and Mining
-  Manufacturing and Industrial
-  Logistics
-  General
-  Remote Monitoring Service(RMS)

HIKVISION

About Us

Hikvision Digital Technology

Hikvision is committed to serving various industries through its cutting-edge technologies of machine perception, artificial intelligence, and big data, leading the future of AIoT. At Hikvision, we believe that close collaboration with our ecosystem of partners is needed to further accelerate innovation and development in the security industry, while also securing maximum value creation for clients.

We work in close partnership with thousands of best of technical manufacturers of hardware and software systems in the security, automated manufacturing, and IoT industries. Our Technology Partner Program ensures that our clients can use Hikvision technologies knowing that we provide vendors with the tools to obtain comprehensive integration and compatibility with all our products.

DAPONA AG

DAPONA AG is the company behind the DAPONA IIoT cloud platform for fire prevention and other risk management solutions
