

**JOINT VALUE BROCHURE**  
**CREATING DIGITAL SIGNAGE**  
**SOLUTIONS TOGETHER**

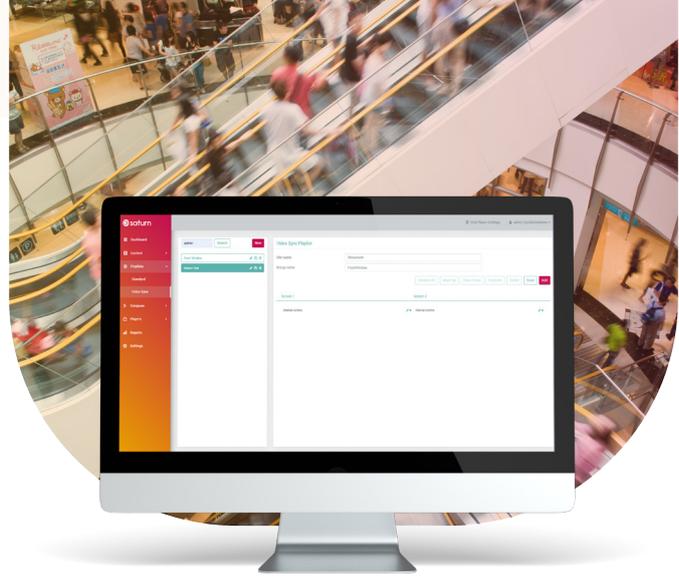

Reimagine what your  
digital signage is capable of.

# SaturnVision

SaturnVision is the ultimate toolbox for managing digital signage. It is enterprise-grade cloud-based software and gives you the ability to customise and control what appears on screen, when and how, and makes integrating third-party software/data/web pages/applications simple.

SaturnVision gives you the ability to:

- Synchronise Hikvision digital signage screens together to create displays across multiple screens
- Create custom screen layouts on your Hikvision digital signage
- Simultaneously display different types/pieces of content on a single Hikvision screen
- Group multiple Hikvision screens together and tailor content (e.g. by location)
- Schedule playlists by date & time or regular times/intervals
- Set content expiry dates for easier library management
- Tailor user permissions to control who can see, edit, and publish content
- Interrupt playlists with urgent announcements and resume them afterwards
- Block specific users' visibility of library content to avoid it being used without permission/by accident
- Adjustable auto-shutdown to save energy and extend your Hikvision screen's life
- Remote device management & screen viewing

## Technical Details

**Solution Type** Digital Signage Content Management

**Product Languages** English

**Regions** Europe

### Integrated Hikvision Products

✓ Digital Signage

### Supported Product Models and Versions

SaturnVision: All versions

Hikvision: Digital Signage Pro Series

## Solution Architecture

# User Benefits

## Easy to use

- Device optimisation to auto-resize content to fit screen
- Content previewing & reviewing
- Drag & drop functionality
- Allows you to add content to playlists automatically using tags
- Find & replace' function to easily swap out content on multiple playlists
- Compatible with all mainstream image & video media formats

## Reliable

- 99.95% platform uptime within last five years
- AWS/Microsoft Azure hosted for reliability & scalability
- Saves media files locally for continuity (in event of internet connection failing)
- Auto-restart function to instantly recover from system crash
- HTTPS encryption protection
- Remote visibility of on-screen activity and player online/offline status
- AI-powered software bug detection and removal protection

## All functionality included in standard licence fee

- 12-month subscription basis (based on volume of media players) with monthly payment options
- Unlimited content library storage
- Unlimited users
- Subscription fee includes:
  - Fully supported initial set-up (e.g. setting screen sizes)
  - Training session (in-person or live streamed)
  - Ongoing user support (18 hours a day, 7 days a week)
  - One custom screen layout (in addition to a library of screen layout templates)

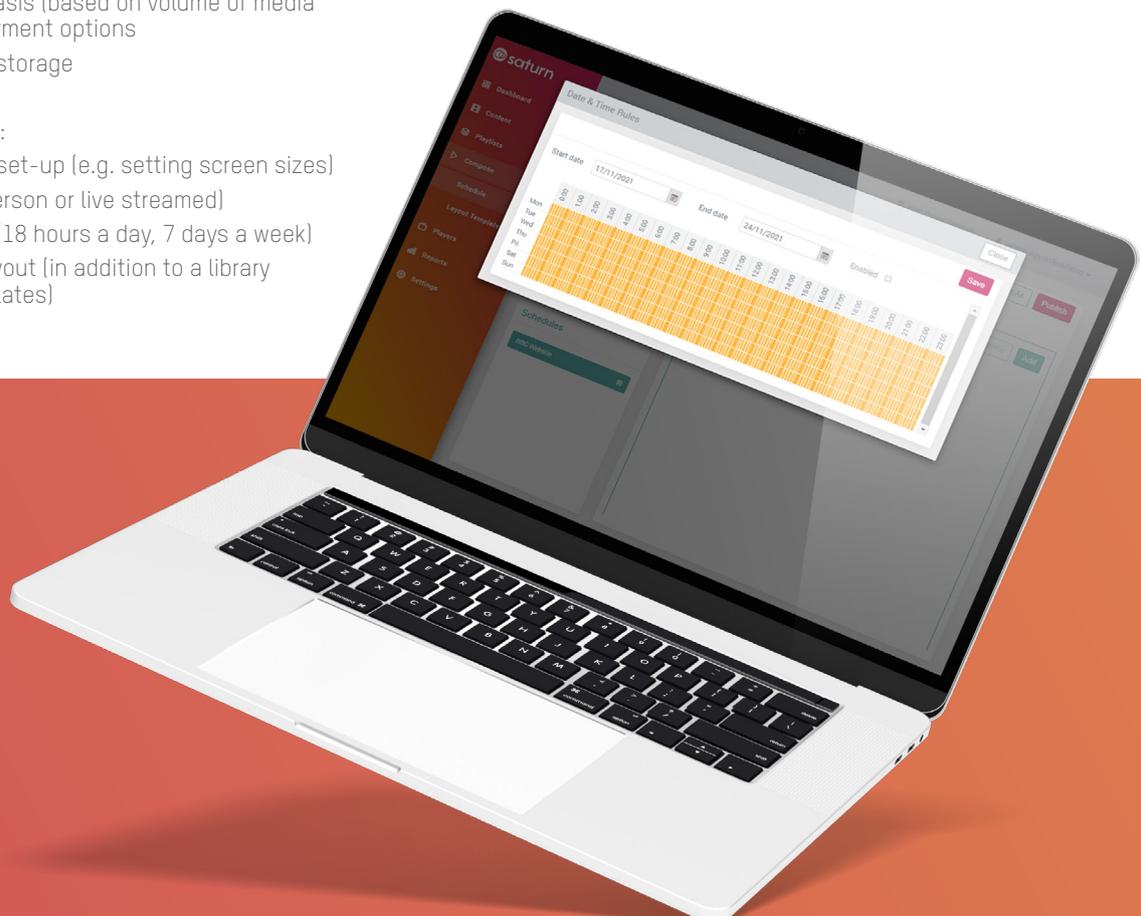

## Easy to integrate

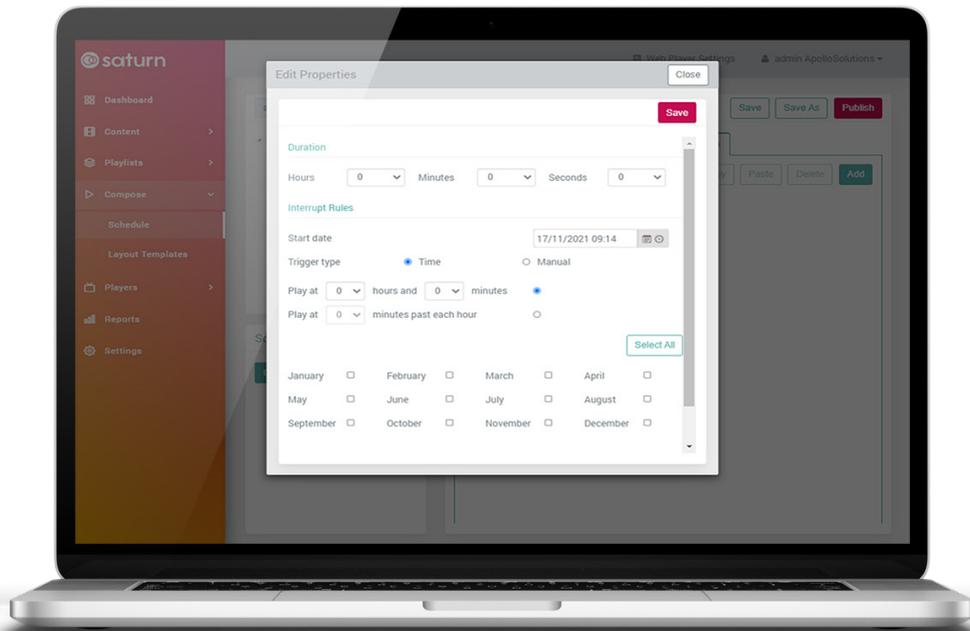

SaturnVision gives you the ability to integrate the following:

- Third party software/data (i.e. SaturnVision is capable of custom integrations)
- Web pages
- Apps (e.g social media, weather, traffic, news)
- Live TV
- RSS feeds
- Motion sensors
- Cameras for customer tracking

## Easy to manage

- Hardware agnostic (i.e. works with all screens, tablets, video walls, touchscreens)
- Content tagging for easy management & playlist building
- Dashboard with media player fault-finding & diagnosis
- Unlimited content library storage
- Library of screen layout templates provided

## Key Features

Content scheduling by date, time, or regular intervals

Screen grouping and synchronisation

Custom screen layouts

Tailor user permissions to control who can see, edit, and publish content

Adjustable auto-shutdown to save energy and extend screen life

## About Us

### Hikvision Digital Technology

Hikvision is an IoT solution provider with video as its core competency. At Hikvision, we believe that it's the close collaboration with our ecosystem of partners that accelerates innovation and development, while also securing maximum value creation for clients.

We work closely with hundreds of the best manufacturers of technical hardware and software systems in the security, automated manufacturing, and IoT industries. Our Technology Partner Program demonstrates how clients can use Hikvision technologies with full confidence that we provide vendors the right tools for comprehensive integration and compatibility with all our products, empowering our joint-value solutions to address pain points in various industries.

### Saturn Visual Solutions

Saturn Visual Solutions is a digital signage consultancy. We can help with system design, product specification and installation. We can also provide content management software and support.
